
Calpine Corporation – About the Company

Calpine Corporation is a major U.S. power company that is safely and responsibly meeting the needs of an economy that demands cleaner, more fuel-efficient and dependable sources of electricity. Founded in 1984, Calpine is capable of delivering more than 24,000 megawatts of clean, reliable electricity to customers and communities in 16 states in the United States and Canada.

Our Vision:

To be recognized as the leading power company by providing clean, efficient and reliable energy products and related services to our customers and appropriate financial returns to our stakeholders.

Our company was established on the premise that a strong commitment to the environment is inextricably linked to excellence in power generation and corporate responsibility. Since its founding, Calpine has led the power industry in its unwavering commitment to clean, energy-efficient, natural gas plants as well as renewable geothermal plants that use steam generated deep below the earth's surface to produce electricity.

Quick Facts

- Calpine is the nation's largest renewable geothermal power provider.
 - 17 plants with 725 megawatts of generating capacity
- Calpine's fleet of 62 plants makes it the largest natural gas fueled power producer in North America.
 - Over 23,000 megawatts of generating capacity
- Calpine plants have enough capacity to meet the electricity needs of 24 million U.S. households.
- Calpine operates one of the newest and cleanest fleets of natural gas power plants in the country.
- Calpine is the largest operator of highly efficient, combined heat and power (CHP) plants.
- The fuel efficiency and advanced emissions controls of our fleet results in dramatically lower greenhouse gas-, smog- and acid rain-producing emissions than coal and other typical fossil-fueled power plants.
- The fuel consumed by our fleet of modern, clean natural gas plants makes us one of the nation's largest consumers of natural gas.
 - To meet Calpine's fuel requirements and sell the electricity produced at our plants, our Houston-based Commercial Operations team operates one of the country's most sophisticated trading operations.
- There are more than 2,000 employees on the Calpine team.
