To encourage increased production of natural gas vehicles and to provide tax incentives for natural gas vehicle infrastructure.

IN THE HOUSE OF REPRESENTATIVES

JULY 22, 2008

Mr. EMANUEL introduced the following bill; which was referred to the Committee on Ways and Means, and in addition to the Committees on Oversight and Government Reform and Energy and Commerce, for a period to be subsequently determined by the Speaker, in each case for consideration of such provisions as fall within the jurisdiction of the committee concerned

A BILL

To encourage increased production of natural gas vehicles and to provide tax incentives for natural gas vehicle infrastructure.

1 *Be it enacted by the Senate and House of Representa-*
2 *tives of the United States of America in Congress assembled,*

3 **SECTION 1. SHORT TITLE.**

4 This Act may be cited as the “New Alternative
5 Transportation to Give Americans Solutions Act”.

6 **SEC. 2. SENSE OF CONGRESS REGARDING NATURAL GAS**
7 **VEHICLES.**

8 (a) FINDINGS.—Congress finds that—

1 (1) according to the Energy Information Ad-
2 ministration (EIA), the transportation sector ac-
3 counts for 69 percent of United States oil consump-
4 tion;

5 (2) natural gas is cleaner and cheaper than gas-
6 oline;

7 (3) 98 percent of natural gas consumed in the
8 United States is produced in North America;

9 (4) recent shale discoveries and technology de-
10 velopment is increasing the American supply of nat-
11 ural gas;

12 (5) natural gas vehicles are growing in popu-
13 larity in Europe, South America, and elsewhere; and

14 (6) the diversification of transportation fuel
15 sources would help the United States meet rapidly
16 growing domestic and global energy demands, reduce
17 the dependence of the United States on oil imported
18 from volatile regions of the world that are politically
19 unstable, stabilize the cost and availability of energy,
20 and safeguard the economy and security of the
21 United States.

22 (b) SENSE OF CONGRESS.—It is the sense of Con-
23 gress that it is the goal of the United States that, not
24 later than December 31, 2018, 10 percent of new vehicles
25 sold in the United States should be natural gas vehicles.
